How does it work?

1. Simply key in the facts of the matter, allowing Litigation Guardian to guide you all the way using a Windows style graphical user interface
2. At the press of a button, Litigation Guardian will electronically "mail" your lodgement messages to the Department of Justice in a coded EDI format via an electronic postal service.
3. Next day, Litigation Guardian will retrieve EDI response messages electronically "mailed" back to you by the Department. These response messages are automatically merged with your original lodgement data.
4. Accepted documents, including all associated forms, may then be printed ready for serving. e.g. Form 4A/24A, Part A/B, Form 1, Form 5A, Form 9A, Notice of Order Made, Warrant, SOE etc.
5. Exact filing fees are automatically debited by the Department from an account specified by you.
6. Status reports may be viewed and/or printed at any stage. Additional accepted document sets may be printed if required.
